USER GUIDE

EXPANSION PACK FOR STEVEN SLATE TRIGGER 2

My name is Darrell Nutt. I have been playing drums, tuning drums, and recording drums for over 30 years! Recently, I took my personal snare drum collection and multisampled 6 of them. This expansion pack, for the Steven Slate drum replacement plugin Trigger 2, includes two DW snare drums, two Gretsch snare drums, a Ludwig snare drum, and a SPL snare drum. The pack features 16 velocity layers per drum and up to four "round robin" hits. There are 3 articulations per drum including: center hit, rimshot, and sidestick. The Steven Slate Trigger 2 plug-in allows complete control over the sounds with an intuitive 8 channel mixing interface. These 8 channels are: top mic, side mic, bottom mic, "Earth & Sky" EQ channels, stereo overhead mics, a compressor channel and stereo ambient room mics. There are over 3300 individual samples for this pack! I've also included 63 signature presets to get you started. If you are a music producer or musician and you use Trigger 2, this signature expansion pack may be great for you! These sounds are suited for all styles of music production.

IMPORTANT NOTE:

You MUST upgrade to Trigger 2 in order to use a Darrell Nutt Signature Drum Pack.

You can download the latest version of Trigger 2 from your user area:
https://my.stevenslateaudio.com/

1. Download the zip files from the links you were emailed or from the darrellnutt.com store landing page after purchase:
   **DNSD_POP_ROCK_SNARE_DRUMS.zip**

2. Unpack the zip files and move the following folder to your "Trigger2 Instruments" folder where you store your other Trigger 2 sample files.

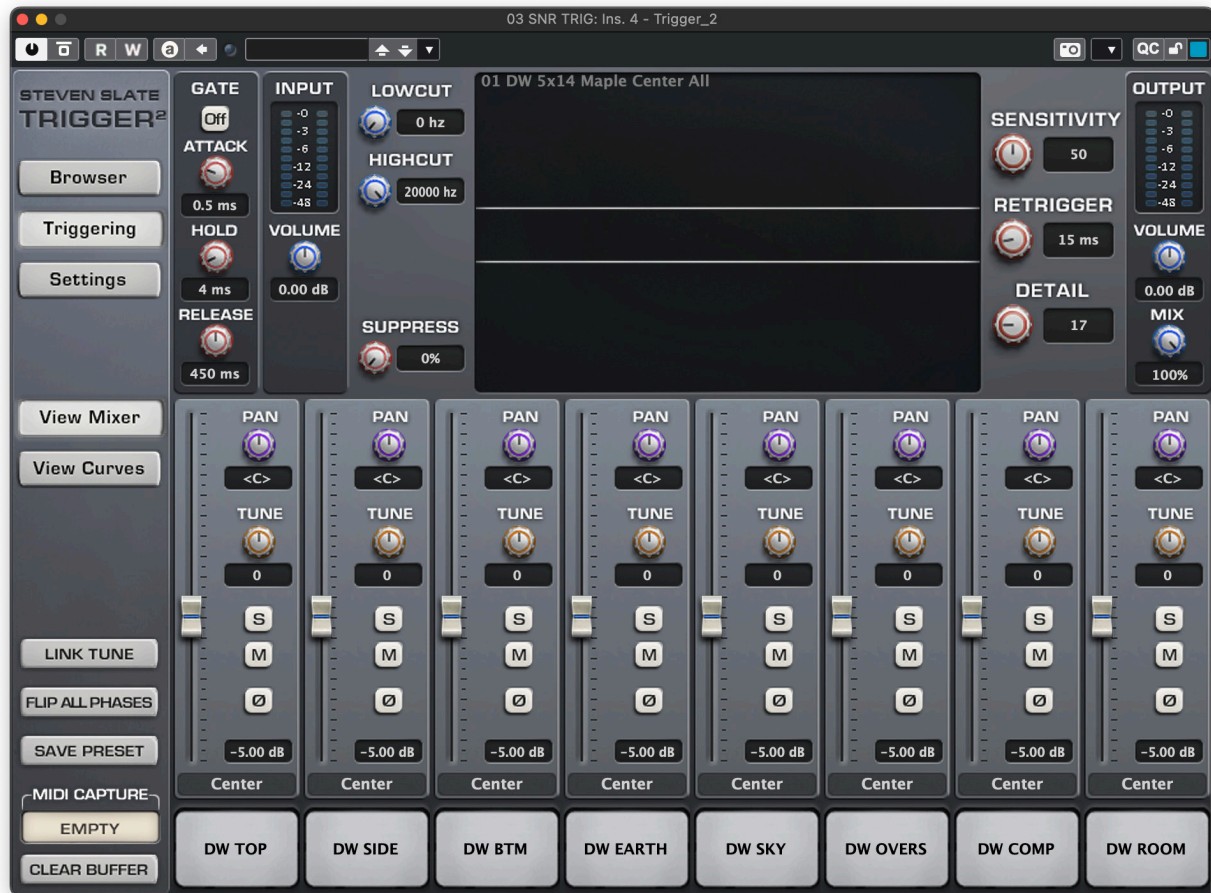

3. Open your DAW application and open an instance of the Trigger 2 plugin. In the Trigger Browser window, select "Refresh" and you should see the Darrell Nutt Pop Rock Snare Drums folder.
    The samples will NOT display unless this folder is in your "Trigger2 Instruments" folder.

POP ROCK SNARE DRUMS TIGGER 2 CHANNELS

CHANNEL 01: TOP - (SM57) Top dynamic mic (Mono)

CHANNEL 02: SIDE - (C414 XLS) Side large diaphragm condenser mic (Mono)

CHANNEL 03: BTM - (SM57) Bottom dynamic mic (Mono)

CHANNEL 04: EARTH - Specially equalized channel for lower impact punch (Mono)

CHANNEL 05: SKY - Specially equalized channel for top end sizzle (Mono)

CHANNEL 06: OVERS - (SR25) Small diaphragm overhead mics (Stereo)

CHANNEL 07: COMP - Compressor - adds length and energy to the snare (Mono)

CHANNEL 08: ROOM - (WA47) Ambient room mics (Stereo)

All microphones were put into the Focusrite Clarett ISA transformer-based mic pre.
