## Darrell Nutt Signature Drums DrumLoops Sample Pack

*My name is Darrell Nutt and I've been playing and recording drums for over 30 years! I hope you like my drum loops and sounds and I hope you come back for more.*

### WHAT IS YACHT ROCK?

Yacht Rock refers to the music of the 70s and 80s that is commonly known as soft rock. This genre of music is a favorite of mine, with soulful artists like Michael McDonald and Kenny Loggins and grooving bands like Pablo Cruise and Steely Dan.

### WHAT ARE DRUMLOOPS SAMPLE PACKS?

DrumLoops is a drum loop sample pack that I created based on a few of my own concepts. First of all, I noticed there were several styles of music lacking in the acoustic drum loop market. I wanted to populate those areas. Secondly, the acoustic drum loops that were available contained too many cymbal crashes and I found them unusable. My loops have no cymbal crashes (except for a few ending loops) and I have included one-shots of all of the cymbals and drums used in this sample pack. I've also included percussion loops that specifically fit these drum songs. I recorded 4 drum songs. Each song has multiple song sections like: Intro Fill, Intro, Verse, Pre Chorus Chorus, Bridge, Fill, Breakdown, Vamp, Outro, Ending and even some Xtra Loops for fun. I play several versions on each song section.

### HOW DO I USE THE DRUMLOOPS SAMPLE PACKS?

Apple Loops are best to use for GarageBand and Logic apps. WAV files work in almost every Digital Audio Workstation (DAW). REX2 files are "sliced" loops that you can use in most DAW apps and are best for time-stretching and changing tempos. WAV One-Shots are individual drum hits that you can add to the loops on a separate track in your DAW for extra hits like cymbal crashes or tom hits.

### HOW DO I USE THE MULTI-TRACK LOOPS?

The Stereo WAV Multi-track Stems are individual stems of the Kick Drum mics, Snare Drum mics, Tom mics subgroup, Overhead mics subgroup and Room mics subgroup for every Loop. Therefore, every loop has 5 stereo files associated with it.

This format allows you to mix the loops as you wish in your DAW because you can have control over volume, add effects and dynamics of the individual loop multi-tracks.

### EVERY LOOP HAS THESE MULTI-TRACKS:

1. Stereo Kick Drum Mics Blend (inside & outside)
2. Stereo Snare Drum Mics Blend (top & bottom)
3. Stereo Tom Mics Subgroup
4. Stereo Overhead Mics Subgroup
5. Stereo Room Mics Subgroup

I have included 2 demo songs for each "Drum Song" so you can hear the loops in action. Demo A is in the Yacht Rock style and Demo B is a variation that demonstrates how the same drum part works with other styles of music.

I hope you enjoy my drum loops! I had a blast making them for you! Thank you!
